

Publikációs lista (RÁKHELY GÁBOR Ph.D.)

Cikkek referált újságokban / Articles in international journals

Solymosi, F., M. Pásztor, **G. Rákhely**:

Infrared Studies of the Effects of Promoters on CO-Induced Structural Changes in Rh
Journal of Catalysis **110**, 413-415 (1988)

Dobi, A. L., **G. Rákhely**, Hannu Niemi, K. L. Kovács

Single Step Sequencing with *Thermus Aquaticus* DNA Polymerase
Technique **2**(3), 167-169 (1990).

Szabó, P., J. Moitra, A. Rencendorj, **G. Rákhely**, T. Rauch, and I. Kiss:

Identification of a Nuclear Factor-I Family Protein Binding Site in the Silencer Region of the
Cartilage Matrix Protein Gene
J. Biol. Chem. **270**(17), 10212-10221 (1995)

Rákhely, G., and K. L. Kovács,

Plating hyperthermophilic archaea on solid surface.
Anal. Biochem., **243**, 181-183 (1996).

Rákhely, G., A. Colbeau, J. Garin, P.M. Vignais, and K.L. Kovács

Unusual Gene Organisation of *hydSL*, the Stable [NiFe] Hydrogenase in the Photosynthetic
Bacterium, *Thiocapsa roseopersicina*
J. Bacteriol. **180**, 1460-1465 (1998).

Kovács, K. L., Cs. Bagyinka, H. Bratu, L. Bodrossy, B. Fodor, K. Györfi, T. Hanczár, M.

Kálmán, J. Ősz, B. Polyák, **G. Rákhely**, M. Takács, A. Tóth, and J. Tusz
Environmental Biotechnology Research in the “Universitas Biotechnology Laboratory”
Acta Biol. Univ. Szeged **43**, 111-116 (1998).

Rákhely, G., Z.H. Zhou, M.W.W. Adams, and K.L. Kovács

Biochemical and Molecular Characterization of the [NiFe] Hydrogenase from the
Hyperthermophilic Archaeon, *Thermococcus litoralis*
Eur. J. Biochem. **266**, 1158-1165 (1999).

Dahl, C., **G. Rákhely**, A.S. Pott, B. Fodor, M. Takács, A. Tóth, M. Kraeling, K. Györfi, Á.

Kovács, J. Tusz, and K.L. Kovács
Genes involved in hydrogen and sulfur metabolism in phototrophic bacteria
FEMS Microbiol. Lett. **80**, 317-324 (1999).

Kovács, K. L., Cs. Bagyinka, L. Bodrossy, B. Fodor, K. Györfi, T. Hanczár, J. Ősz, **G. Rákhely**, M. Takács, A Tóth, and J. Tusz,

Recent advances in biohydrogen research.

Pflügers Archiv Eur. J. Physiol. **439**, R81-R83 (2000)

Kovács, K. L., **G. Rákhely**, A. S. Pott, M. Takács, A. Tóth, H. Bratu, K. Gyórfi, B. Fodor, J. Tusz, and C. Dahl,

Genes involved in hydrogen and sulfur metabolism in photosynthetic bacteria.

Pflügers Archiv Eur. J. Physiol. **439**, R90 (2000)

Perei, K., **G. Rákhely**, I. Kiss, B. Polyák, and K. L. Kovács

Biodegradation of sulfanilic acid by *Pseudomonas paucimobilis*

Applied Microbiol. Biotechnol. **55**, 101-107. (2001)

Kovács, K. L., Z. Bagi, Cs. Bagyinka, L. Bodrossy, R. Csáki, B. Fodor, T. Hanczár, J. Tusz, Á.T. Kovács, J. Lu, M. Magony, G. Maróti, K. Perei, S. Arvani, M. Takács, and **G. Rákhely**
Biohydrogen, Biogas, Bioremediation (Biohidrogén, Biogáz, Bioremediáció)

Acta Biol. Debrecina. **22**, 47-54 (2000)

Fodor B., **Rákhely G.**, Kovács A.T., Kovács K.L.

Transposon mutagenesis in purple sulfur photosynthetic bacteria: identification of *hypF*, encoding a protein capable of processing [NiFe] hydrogenases in alpha, beta, and gamma subdivisions of the proteobacteria.

Appl. Environ. Microbiol., **67**, :2476-83 (2001)

Takács, M., **G. Rákhely** and K.L. Kovács

Molecular characterization and heterologous expression of *hypCD*, the first two [NiFe] hydrogenase accessory genes of *Thermococcus litoralis*

Arch. Microbiol., **176**, 231-235 (2001).

Lu J, **G. Rákhely**, K.L. Kovács, C. Xiao and P. Zhou

Identification and cloning of partial *mbh2* gene cluster of hyperthermophile *Aquifex pyrophilus*

Wei Sheng Wu Xue Bao. **41**:674-9 (2001)

Szilágyi, A., K. L. Kovács, **G. Rákhely**, P. Závodszy.

Homology modelling reveals the structural background of the striking difference in thermal stability between two related [NiFe]hydrogenases.

J. Mol. Model. **8**: 58-64 (2002)

Kovács K.L., B. Fodor, Á.T. Kovács, G. Csanádi, G. Maróti, J. Balogh, S. Arvani and **G. Rákhely**

Hydrogenases, accessory genes and the regulation of [NiFe] hydrogenase biosynthesis in *Thiocapsa roseopersicina*

Int. J. Hydrogen Energ. **27**: 1463-1469 (2002).

Kovács, Á.T., **G. Rákhely** & K.L. Kovács Genes involved in the biosynthesis of photosynthetic pigments in the purple sulfur photosynthetic bacterium *Thiocapsa roseopersicina*.

Appl Environ Microbiol **69**:3093-3102 (2003).

Maróti, G., B.D. Fodor, **G. Rákhely**, Á.T., Kovács, S. Arvani & K.L. Kovács
Accessory proteins functioning selectively and pleiotropically in the biosynthesis of [NiFe]
hydrogenases in *Thiocapsa roseopersicina*.
Eur J Biochem **270**:2218-27 (2003).

Rákhely, G., Á.T. Kovács, G. Maróti, B.D. Fodor, G. Csanádi, D. Latinovics & K. L. Kovács
Cyanobacterial-type, heteropentameric, NAD⁺-reducing NiFe hydrogenase in the purple
sulfur photosynthetic bacterium *Thiocapsa roseopersicina*
Appl. Environ. Microbiol. **70**:722-8 (2004).

Fodor B.D, Á.T. Kovács, R. Csáki, É. Hunyadi-Gulyás, É. Klement, G. Maróti, L.S.
Mészáros, K.F. Medzihradzsky, **G. Rákhely** & K.L. Kovács KL.
Modular broad-host-range expression vectors for single-protein and protein complex
purification.
Appl Environ Microbiol. **70**:712-21 (2004).

Kovács, K. L., Á. T. Kovács, G. Maróti, L.S. Mészáros, J. Balogh, D. Latinovics, A. Fülöp,
R. Dávid, E. Dorogházi and **G. Rákhely**
The hydrogenases of *Thiocapsa roseopersicina*.
Biochemical Society Transactions **33**: 61-63 (2005).

Kovács, Á. T., **G. Rákhely**, J. Balogh, G. Maróti, A. Fülöp, and K.L. Kovács
Anaerobic regulation of hydrogenase transcription in different bacteria.
Biochemical Society Transactions **33**: 36-38 (2005).

Kovács, Á. T., **G. Rákhely**, D.F. Browning, A. Fülöp, G. Maróti, S.J.W. Busby and K.L.
Kovács.
An FNR-type regulator controls the anaerobic expression of Hyn hydrogenase in *Thiocapsa*
roseopersicina.
J. Bacteriol. **187**: 2618-2627 (2005)

Kovács, K. L., Á.T. Kovács, G. Maróti, Z. Bagi, Gy. Csanádi, K. Perei, B. Bálint, J. Balogh,
A. Fülöp, L.S. Mészáros, A. Tóth, R. Dávid, D. Latinovics, A. Varga and **G. Rákhely**
Improvement of biohydrogen production and intensification of biogas formation.
Rev. Environ. Sci. Biotechnol. **3**: 321-330 (2005).

Bálint B, Z. Bagi, A. Tóth, **G. Rákhely**, K. Perei, K.L. Kovács.
Utilization of keratin-containing biowaste to produce biohydrogen.
Appl Microbiol Biotechnol. **69**: 404-410 (2005).

Kovács Á.T., **G. Rákhely**, K.L. Kovács.
The PpsR regulator family. *Res Microbiol.* **156**:619-25 (2005).

Tenger, K., P. Khoroshyy, B. Leitgeb, **G. Rákhely**, N. Borovok, A. Kotlyar & L. Zimányi.
Complex electron transfer kinetics between the photoactive label TUPS and the heme of
cytochrome c. *Eur. Biophys. J.* 34:665. (2005).

Magony, M.; É. Klement, É. Hunyadi-Gulyás, K.F. Medzihradsky, K. Perei, A. Gara, P. Rapali, K.L. & **G. Rákhely**. Mass spectral identification of the enzymes involved in the biodegradation of sulfonated aromatic compounds. *Mol. Cell Proteomics* 4:S448. (2005)

Kovács ÁT, **G. Rákhely**, J. Balogh, G. Maróti, L. Cournac, P. Carrier, L.S. Mészáros, G. Peltier, K.L. Kovács
Hydrogen independent expression of *hupSL* genes in *Thiocapsa roseopersicina* BBS. *FEBS J.* **272**:4807-16 (2005)

Tenger K, P. Khoroshyy, B. Leitgeb, **G. Rákhely**, N. Borovok, A. Kotlyar, D.A. Dolgikh & L. Zimanyi.
Complex Kinetics of the Electron Transfer between the Photoactive Redox Label TUPS and the Heme of Cytochrome c.
J Chem Inf Model. 45:1520-1526 (2005)

Kovács K.L., G. Maróti & **G. Rákhely**
A novel approach for biohydrogen production
International Journal of Hydrogen Energy 31:1460 – 1468 (2006)

Rákhely G., Laurinavichene T.V, Tsygankov A.A., Kovács K.L.
The role of Hox hydrogenase in the H₂ metabolism of *Thiocapsa roseopersicina*. *Biochim Biophys Acta Bioenergetics* 1767:671-6 (2007)

Laurinavichene, T. V., **G. Rákhely**, K.L. Kovács & A.A. Tsygankov
The effect of sulfur compounds on H₂ evolution/consumption reactions, mediated by various hydrogenases, in the purple sulfur bacterium, *Thiocapsa roseopersicina*
Arch. Microbiol. 188:403-10 (2007)

Bagi Z., N. Ács, B. Bálint, L. Horváth, K. Dobó, K. R. Perei, **G. Rákhely** and K. L. Kovács
Biotechnological intensification of biogas production.
Appl. Microbiol. Biotechnol. 76:473-82 (2007)

Leitgeb B, Á. Kerényi, F. Bogár, G. Paragi, B. Penke & **G. Rákhely**
Studying the structural properties of polyalanine and polyglutamine peptides.
J Mol Model. 13:1141-50 (2007)

Magony M., I. Kákonyi, A. Gara, P. Rapali, K. Perei, K. L. Kovács and **G. Rákhely**
Overlaps between the various biodegradation pathways in *Sphingomonas subarctica* SA1
Acta Biol. Hung. 58:37–49 (2007)

Tenger K., P. Khoroshyy, K.L. Kovács, L. Zimányi & **G. Rákhely**
Improved system for heterologous expression of cytochrome c mutants in *Escherichia coli*.
Acta Biol. Hung. 58:23–35 (2007)

Tóth, A., M. Takács, **G. Rákhely** and K. L. Kovacs
A novel NADPH-dependent oxidoreductase with a unique domain structure in the hyperthermophilic Archaeon, *Thermococcus litoralis*. *FEMS Microbiol Lett.* 282:8-14. (2008)

Takács, M., A. Tóth, B. Bogos, A. Varga, **G. Rákhely** and K. L. Kovács (2008) Formate hydrogenlyase in the hyperthermophilic archaeon, *Thermococcus litoralis*. *BMC Microbiology* 8:88

Tenger, K; P. Khoroshyy, **G. Rákhely** & Zimányi, L (2008) Heterologous overexpression of eukaryotic cytochrome c and cytochrome c heme lyase to study the mechanism of cytochrome c maturation. *Biochim Biophys Acta Bioenergetics* 1777:S90.

Kars G, Gündüz U, Rákhely G, Yücel M, Eroğlu İ. & Kovacs LK Improved hydrogen production by hydrogenase deficient mutant strain of *Rhodobacter sphaeroides* O.U.001. *Int J Hydrogen Energy*; 33:3056-3060 (2008).

Palágyi-Mészáros LS, Maróti J, Latinovics D, Balogh T, Klement E, Medzihradzky KF, **Rákhely G**, Kovács KL. Electron-transfer subunits of the NiFe hydrogenases in *Thiocapsa roseopersicina* BBS. *FEBS J.* 276:164-74 (2009)

Ivanova, G., **Rákhely, G.** & Kovács, K.L. Thermophilic biohydrogen production from energy plants by *Caldicellulosiruptor saccharolyticus* and comparison with related studies. *Int. J. Hydrogen Energy.* 34:3659-3670 (2009).

Kars G, Gündüz U, Yücel M, **Rákhely G.**, Kovács L.K. & Eroğlu İ. Evaluation of hydrogen production by *Rhodobacter sphaeroides* O.U.001 and its *hupSL* deficient mutant using acetate and malate as carbon sources. *Int J Hydrogen Energy.* 34:2184- 90 (2009).

Janzsó G, **Rákhely G**, Leitgeb B
Comprehensive structural characterization of the cyclic disulphide-bridged nonapeptides Arg- and Lys-conopressins. *J. Mol. Graph. Model.*, 27:881-888(2009).

Tenger K, Khoroshyy P, **Rákhely G**, Zimányi L. Maturation of a eukaryotic cytochrome c in the cytoplasm of *Escherichia coli* without the assistance by a dedicated biogenesis apparatus. *J Bioenerg Biomembr.* 42:125-33 (2010).

Maroti G., **G. Rákhely**, J. Maroti, E. Doroghazi, E. Klement, K.F. Medzihradzky & K.L. Kovacs. Specificity and selectivity of HypC chaperonins and endopeptidases in the molecular assembly machinery of [NiFe] hydrogenases of *Thiocapsa roseopersicina*. *Int J Hydrogen Energy* 35:3358-3370 (2010)

Maroti J., A. Farkas, I.K. Nagy, G. Maroti, E. Kondorosi, **G. Rákhely** & K.L. Kovacs
A Second Soluble Hox-Type NiFe Enzyme Completes the Hydrogenase Set in *Thiocapsa roseopersicina* BBS. *Appl Environ Microbiol.* 76:5113-5123 (2010)

Herbel, Zs., **G. Rákhely**, Z. Bagi, G. Ivanova, N. Acs, E. Kovacs & K.L. Kovacs
Exploitation of the extremely thermophilic *Caldicellulosiruptor saccharolyticus* in hydrogen and biogas production from biomasses . *Environmental Technology* 31:1017-1024 (2010)

Könyvfejezetek / Book chapters:

K. Perei, L. Bodrossy, **G. Rákhely**, Cs. Bagyinka, Z. Bihari, P. Kesserű, I. Kiss, B. Polyák, K. L. Kovács

Biodegradation of selected hazardous waste.

Proc. COST Action 831. EUR 19548. (Eds. A. Benedetti, F. Tittarelli, S. de Bertoldi, F. Pinzari) pp.326-334. (2000)

K.L. Kovács, **G. Rákhely**, L. Bodrossy, B. Polyák, I. Kiss, M. Hansel, K. Perei, Cs.

Bagyinka, On the significance of microbial gas metabolism in waste degradation.

ICER-TEMPUS Publications (ISBN-963 7290 13 13). Baja, Hungary, pp. 1-5 (1997)

Mikrobiológiai eljárás toll lebontására, az eljárással előállított biomassza, és a biomassza alkalmazása mikroorganizmusok tápközegeként előnyösen biológiai hidrogéntermelésre
Szabadalmi hivatalhoz benyújtva 2002. Ügyszám: P0203998

Konferenciák / Conferences:

Bajszár, G., E. Horváth, A. L. Dobi, A. Glatz, G. Rákhely, K.Jósvay, A.Simoncsits
Heterologous Protein Expression in Recombinant Yeast
Nucleic Acid Workshop, Nosvaj, Hungary (1989).

Göbölös, S., Z. Pallai, G. Rákhely, J. Szöllösi, E. Tálás, and K. Hanks
Application of Controlled Pore Glass in Biochemical Separations
3rd International Conference on Biochemical Separations, Sopron, Hungary (1991).

Moitra, J., G. Rákhely, S. Muratoglu, and I. Kiss
Preparation of transcriptionally active nuclear extract from condrogenic source
XIVth Meeting of Federation of European Connective Tissue Societies Lyon, France (1994).

Moitra, J., P. Szabó, G. Rákhely, A. Rencendorj, and I. Kiss
Identification of an NF-I family protein binding site in the silencer region of the cartilage matrix protein gene
"Cell Differentiation and Gene Expression" EMBO Workshop, Arolla, Switzerland (1994).

Rákhely, G., Z.Zhou, M.W.W.Adams, and K.L.Kovács:
Cloning, sequencing, overexpression and mutational analysis of the [Ni-Fe] hydrogenase gene from *Thermococcus litoralis*
NSF Hyperthermophile Symposium, Athens, Georgia, USA (1995).

Dankó, L., G. Rákhely, O. Schmitz, H. Bothe, and K. L. Kovács
Cloning of a stable hydrogenase gene of *T. roseopersicina*
Advanced Eubacterial Genetics, EMBO Course, Umea, Sweden (1995).

Kovács, K. L.; G. Rákhely, A. Colbeau, and P. M. Vignais,
A hydrogenase needs functional assignment in *Thiocapsa roseopersicina*.
Proc. COST Workshop "Hydrogenase Structures and Functional Implications" Grenoble, France. pp. 18, (1996)

K. L. Kovács, Cs. Bagyinka, and G. Rákhely,
Molecular biology, physiology, and redox centres of hydrogenases from photosynthetic bacteria.
Proc. 11th International Conf. on Photochemical Conversion and Storage of Solar Energy, Bangalore, India. (ed. V. Krishnan), pp. 231-232. (1996).

K. L. Kovács, G. Rákhely, A. Colbeau, and P. M. Vignais,
Heat-stable hydrogenase sequences from mesophilic and hyperthermophilic microorganisms.
Proc. COST Workshop "Regulation of Hydrogenase Biosynthesis" Berlin, Germany, p. 20. (1996).

K. L. Kovács, and G. Rákhely,
Propagation of thermophiles on solid media: application to anaerobic, hyperthermophilic archaea.
Proc. Int. Conf. "Thermophiles '96" Athens, GA. USA, p. 121. (1996).

Rákhely, G., Z. Zhou, M. W. W. Adams, and K. L. Kovács,
Cloning, sequencing, and biochemical analysis of the [NiFe] hydrogenase and putative sulfite reductase genes from *Thermococcus litoralis*.
Proc. Int. Conf. "Thermophiles '96" Athens, GA. USA, p. 168. (1996).

 (2000)
- Takács, M., G. Rákhely, and K.L. Kovács
 Isolation of accessory genes, playing role in the maturation process of the NiFe hydrogenase from *Thermococcus litoralis*
Proc. 6th Int. Conf. on the Molecular Biology of Hydrogenases. Potsdam, Németország
 (2000)
- Kovács, K.L., Cs. Bagyinka, L. Bodrossy, B. Fodor, T. Hanczár, Á.T. Kovács, G. Maróti, J. Ósz, A. Szilágyi, M. Takács, P. Závodszy, and G. Rákhely
 Towards understanding the molecular basis of how a stable [NiFe] hydrogenase is made
Proc. 6th Int. Conf. on the Molecular Biology of Hydrogenases. Potsdam, Németország
 (2000)
- Takács, M., G. Rákhely, A. Tóth, K. L. Kovács
 Identification of *hypCD* genes encoding proteins involved in the maturation process of the NiFe hydrogenase in *Thermococcus litoralis*
Proc. 3rd Int. Cong. on Extremophiles. Hamburg-Harburg, Németország (2000).
- Perei, K., M. Magony, G. Rákhely, K. L. Kovács^{*}
 Biodegradation of sulfanilic acid by *Sphingomonas sp.*
Inter-COST Workshop on Bioremediation Sorrento, Italy (2000)
- Takács M., Fodor B., Rákhely G., Kovács K. L.
 Identification of genes coding for proteins playing role in the maturation processes of thermophilic [NiFe] hydrogenases.
 18th International Congress of Biochemistry and Molecular Biology (Beyond the Genome).
 16-20 július 2000. Birmingham, U.K.
- Rákhely, G., B. Fodor, Á. Kovács, M. Takács, K.L. Kovács.
 Identification of *hyp* genes in the photosynthetic bacterium, *Thiocapsa roseopersicina* and the Hyperthermophilic archeon, *Thermococcus litoralis*,
 Meeting EU-Project on Structure and function of [NiFe]-hydrogenases, Noordwijkerhout, The Netherlands, March 2-5 2000.

Rákhely G., Fodor B., Takács M., Kovács Á. T., Maróti G., Arvani S., Kovács K. L. Recent developments in the study of [NiFe] hydrogenases in Szeged, Hungary.
COST 841 Workshop on the Biodiversity of Hydrogenases. március 29-április 1. Reading, U.K. (2001).

Arvani S., Fodor B., Rákhely G., Kovács K. L.
Identification of [NiFe] hydrogenase accessory genes in *Thiocapsa roseopersicina*.
COST 841 action and IEA Annex 15 Joint Workshop. 7-12 szeptember 2001. Szeged, Magyarország.

Kovács Á.T., G. Rákhely and K. L. Kovács
Regulation of the stable hydrogenase biosynthesis of *Thiocapsa roseopersicina* in homologous and heterologous hosts.
COST Action 841 and IEA Annex 15 joint Workshop September 7-12. 2001, Szeged, Hungary

Rákhely, G., Gy. Csanádi, B. Fodor, Á. T. Kovács, G. Maróti, J. Balogh and K.L. Kovács.
Genes encoding for soluble [NiFe] hydrogenases in the photosynthetic bacterium, *Thiocapsa roseopersicina*
Biohydrogen 2002. Internat. Conf., Ede Netherlands, p. 123 (2002)

Csanádi, G., G. Rákhely and K. L. Kovács.
Partial purification and properties of soluble hydrogenase (SH) from *Thiocapsa roseopersicina*
Biohydrogen 2002. Internat. Conf., Ede Netherlands, p. 122 (2002)

Tóth, A., Rákhely, G. and Kovács, L. K.
Expression and activity of hydrogenases in *Thermococcus litoralis* grown under various conditions
Biohydrogen 2002. Internat. Conf., Ede Netherlands, p. 110 (2002)

Kovács, Á. T., G. Rákhely and K.L. Kovács
Global signal transduction cascade coupled to anaerobiosis regulates the expression of the stable hydrogenase in *Thiocapsa roseopersicina*
Biohydrogen 2002. Internat. Conf., Ede Netherlands, p. 121 (2002)

Tóth, A., Rákhely, G. and Kovács, L. K.
Expression and activity of hydrogenases in *Thermococcus litoralis* grown under various conditions
The 4th Internat. Congress On Extremophiles, Napoli, Italy, p. 419 (2002)

Takács, M., G. Rákhely, K. L. Kovács.
Characterization of a putative respiratory complex in the hyperthermophilic archaeon, *Thermococcus litoralis*
The 4th Internat. Congress On Extremophiles, Napoli, Italy, p. 418 (2002)

Rákhely, G., Gy. Csanádi, B. Fodor, Á. T. Kovács, G. Maróti, D. Latinovics and K.L. Kovács.
Characterization of the operon coding for the soluble heteropentameric [NiFe] hydrogenase in the photosynthetic bacterium, *Thiocapsa roseopersicina*

COST 8.41 Workshop on Biosynthesis and Regulation of Hydrogenases, Cercedilla Spain, p. 69 (2002)

Maróti, G., B. Fodor, G. Rákhely, Á.T. Kovács, S. Arvani and K.L. Kovács.
Unusual features and organization of the [NiFe] hydrogenase accessory genes in *Thiocapsa roseopersicina*

COST 8.41 Workshop on Biosynthesis and Regulation of Hydrogenases, Cercedilla Spain, p. 63 (2002)

Fodor B. D., G. Rákhely, Á. T. Kovács, and K.L. Kovács
Genes and gene products of the operon (*hynS-isp1-isp2-hynL*) coding for the stable hydrogenase of *Thiocapsa roseopersicina*

COST 8.41 Workshop on Biosynthesis and Regulation of Hydrogenases, Cercedilla Spain, p. 53 (2002)

Kovács Á.T., G. Rákhely, J. Moura, J. Balogh, G Maróti and K.L. Kovács.
Regulatory mechanisms controlling the expression of genes encoding the membrane bound hydrogenases in *Thiocapsa roseopersicina*

COST 8.41 Workshop on Biosynthesis and Regulation of Hydrogenases, Cercedilla Spain, p. 59 (2002)

Kovács, Á. T., Rákhely, G., , Douglas, F. B., Maróti, G., Balogh, J., Latinovics, D., Fülöp, A., Stephen, J.W. B., Kovács, K. L.

Regulation by light, oxygen and hydrogen in a purple sulfur photosynthetic bacterium.
EMBO conference on Molecular Microbiology: Exploring Prokaryotic Diversity. 2004 április 22.-26., Heidelberg, Germany (2004)

Rákhely G. G. Maróti, Á. T. Kovács, Gy. Csanádi, L. Mészáros, D. Latinovics, J. Balogh, A. Varga and K. L. Kovács On the physiological role of the NiFe hydrogenases in *T. roseopersicina*,

COST Meeting ACTION 841 and Workshops, May 01-03 2005., Porto, Portugal,

Rákhely G., B. Bálint, Z. Bagi, A. Tóth, K. Perei, and K. L. Kovács

Biohydrogen production from keratin containing wastes
HYPOTHESIS 2005, HYdrogen – POWER THEoretical and Engineering Solutions
International Symposium, May 8-12, 2005, Habana, Cuba

Balogh T., J. Balogh, G. Rákhely and K. L. Kovács

Functional analysis of the *hupHI* genes in the operon of the Hup hydrogenase in the purple sulfur photosynthetic bacteria *Thiocapsa roseopersicina* BBS
International Congress of the Hungarian Society for Microbiology, Keszthely, Hungary, 18-20. October 2006.

Győri E., L. S. Palágyi-Mészáros, G. Rákhely and K. L. Kovács

The electron transfer subunits of the Hyn hydrogenase in the purple sulfur phototrophic bacterium, *Thiocapsa roseopersicina* BBS
International Congress of the Hungarian Society for Microbiology, Keszthely, Hungary, 18-20. October 2006.

Dányi I., Livia S. Palágyi-Mészáros, Gábor Rákhely, Kornél L. Kovács
The role of the HynH protein in the biosynthesis of the Hyn hydrogenase in *Thiocapsa roseopersicina* BBS
International Congress of the Hungarian Society for Microbiology, Keszthely, Hungary, 18-20. October 2006.

Varga A., D. Latinovics, Á.T. Kovács, É. Klement, K. Medzihradzky Folkl, G. Rákhely and K.L. Kovács
Identification of five units of Hox hydrogenase in *Thiocapsa roseopersicina*. International Conference on Photochemical Conversion and Storage of Solar Energy (IPS-16), Uppsala, July 2-7 (2006) W6-P-12.
